

# SAFETY MANAGEMENT SYSTEMS

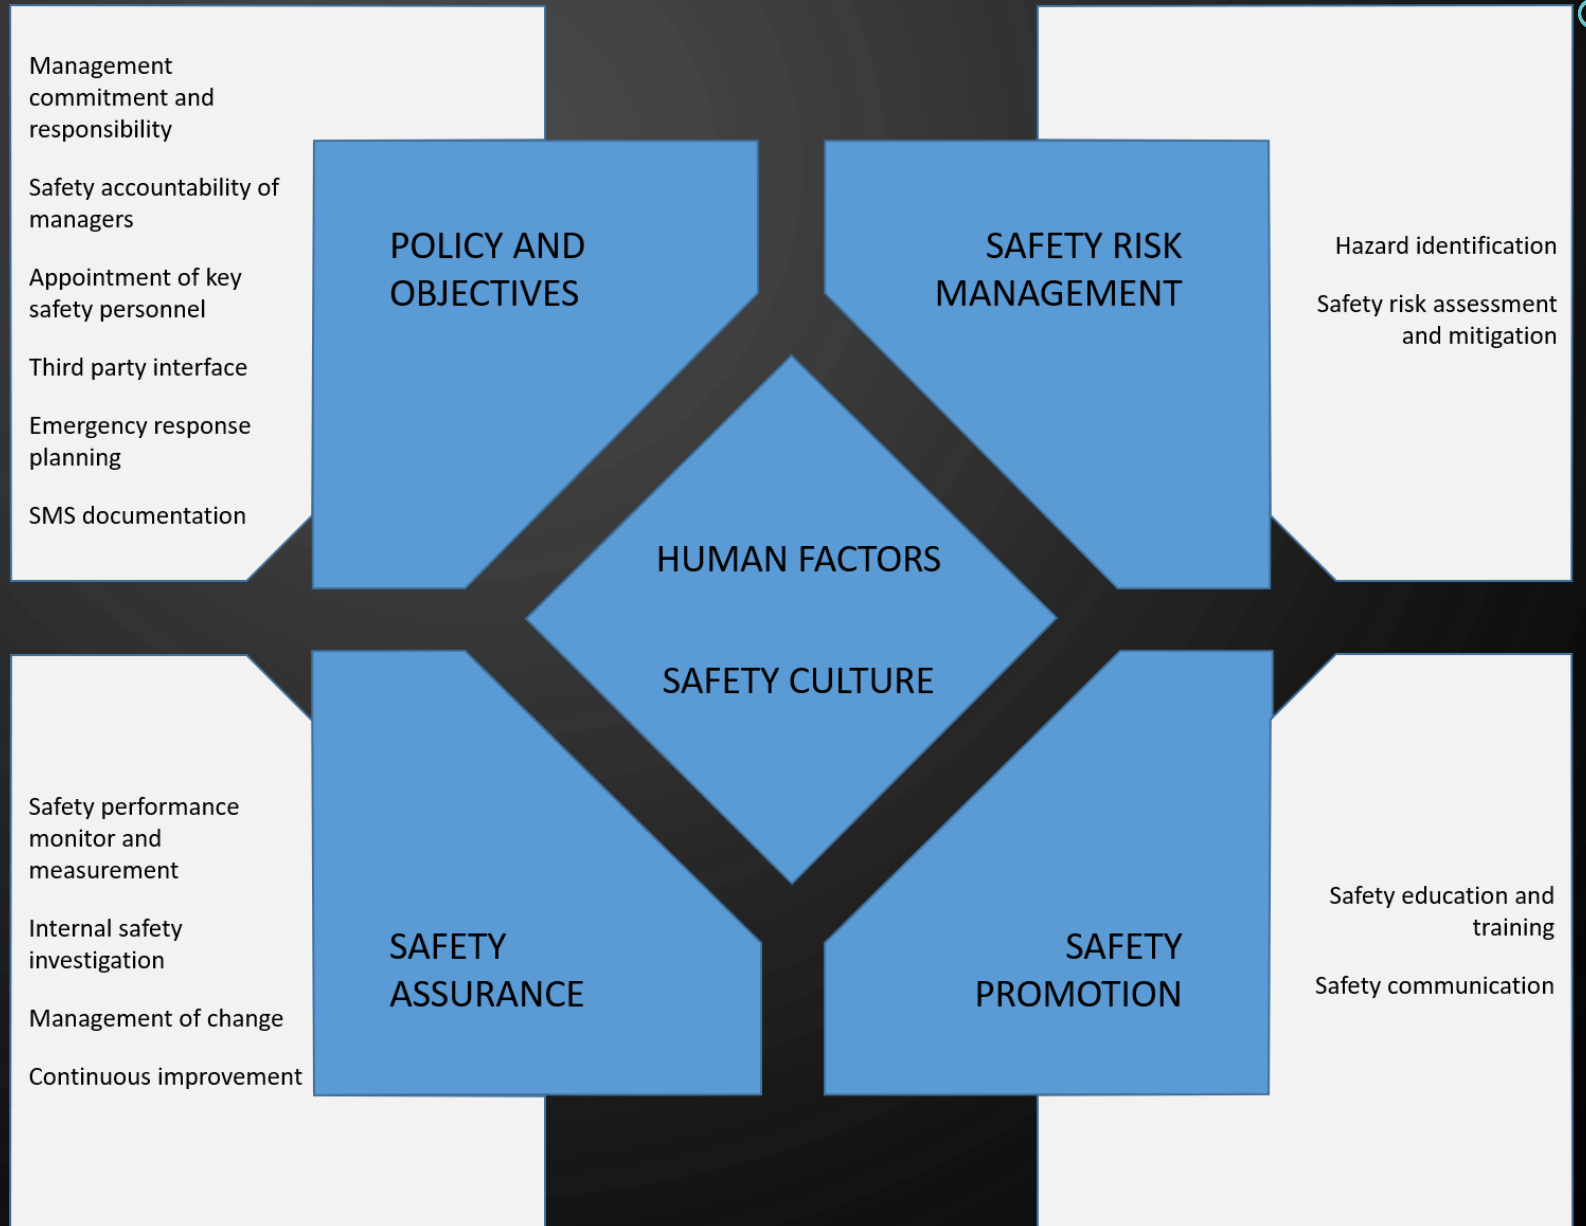

FOR REAL, OR FOR THE REGULATOR?

MATT MCKAY

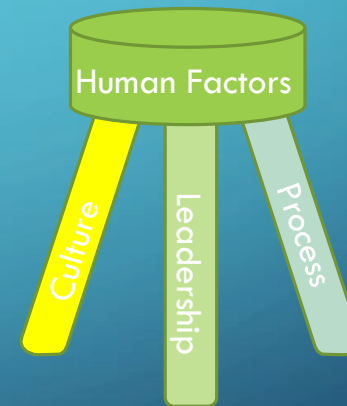

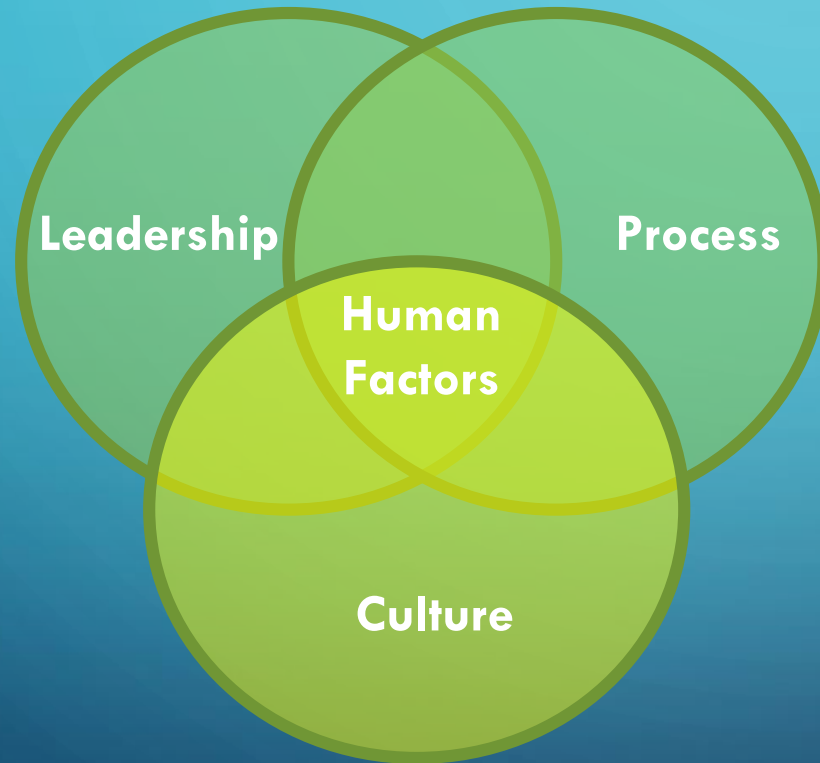

SOUTHPAC AEROSPACE

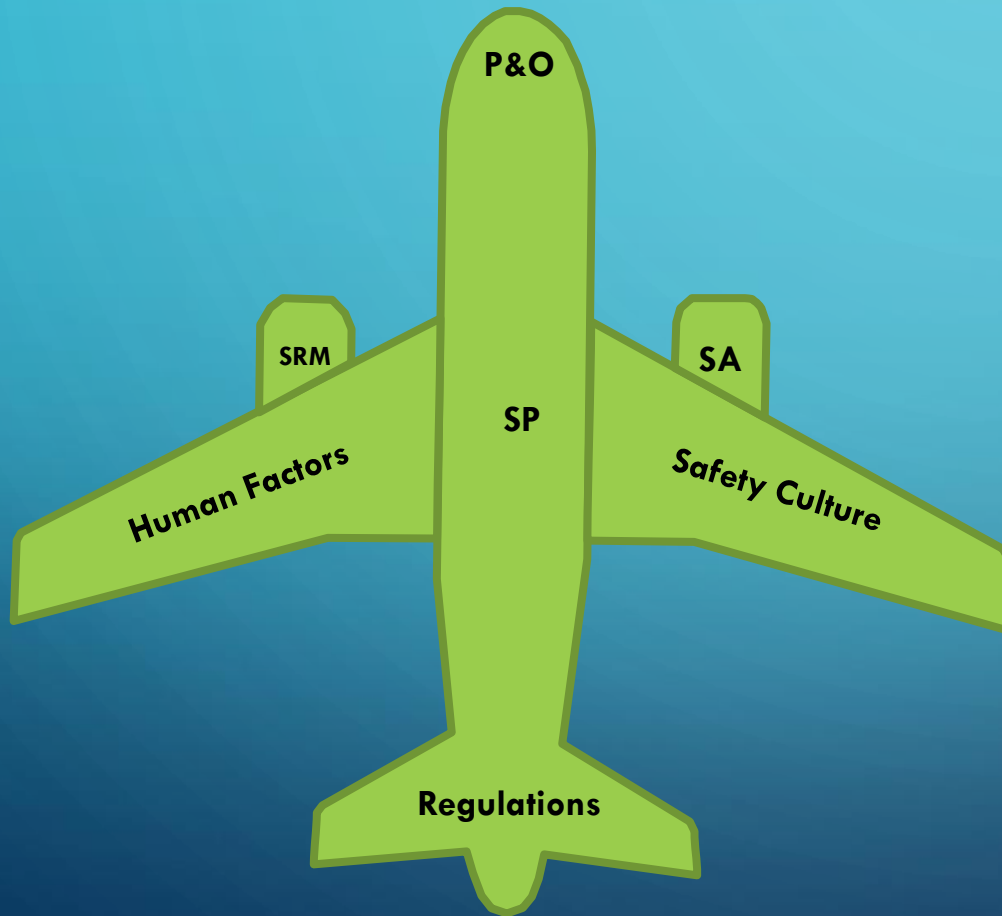

# SAFETY MANAGEMENT SYSTEM

IT'S A BALANCE!

# SMS - IT'S A SYSTEM!

SMS VS  
QMS VS  
WHS  
(.../OHS/HSE...)

The background features a large, stylized balance scale in shades of blue and teal. The scale is slightly tilted, with the right pan being lower than the left. Overlaid on the scale are several light blue circuit-like lines with small circles at their ends, resembling a network or data flow diagram. These lines are positioned on both sides of the central text box.

# RISK VS REWARD?

(AND THE MUCH UNDERRATED 'KISS' PRINCIPLE)

The image features two red and white biplanes flying in a clear blue sky. The top biplane is angled upwards and to the left, with the number '46' on its side. The bottom biplane is angled downwards and to the right, with the number '12' on its side. A large, dark, rounded rectangular box is centered in the image, containing the text 'THANK YOU' in white, bold, sans-serif capital letters. On either side of this box, there are stylized, light blue circuit-like lines with small circles at the ends, extending towards the edges of the frame. The background is a vibrant blue sky with a few wispy white clouds.

THANK YOU
